Designed and made in Norway

# About Fibo

**Designed and manufactured in Norway - the home of wood technology and contemporary Scandinavian styling** – Fibo is the leading supplier of waterproof wall panels. Starting out quite modestly in 1952 with a small factory, today we operate a multi-million pound award-winning factory producing panels for over 100,000 bathrooms a year.

Tried and tested in Norway for almost 70 years, Fibo was the first to make the ‘click’ system for walls. The smooth and strong surface can withstand both direct water spray and large temperature fluctuations. Quick to dry, easy to clean, and simple to install. You are guaranteed a result that will last for many years.

## Our environmental commitment

We know that responsible and sustainable development makes sense. We carefully select suppliers who comply with our strict recycling requirements at every stage. With PEFC certification – a set of standards which promotes environmentally sound and socially just management of forests - our commitment to the environment is at the core of everything we do.

For more information on Fibo’s commitment to the environment go to [www.fibo.co.uk](http://www.fibo.co.uk)

# Eight reasons

to make the smarter choice

1. Simple and quick to install
2. Shorter installation time
3. Lower fitting cost
4. Shorter down-time
5. No grouting required
6. Environmentally friendly
7. 15 years warranty
8. Easy to keep clean

# Easy & cost effective

Fibo wall panels are designed to make installation easy and efficient. The wall system can be mounted up to five times faster than tiles, and panels can be attached to the timber frame, tiles or plasterboard.

## Five times quicker than tiles. About a hundred times easier.

**Installing Fibo wall panels couldn't be simpler.**

Go to [www.fibo.co.uk](http://www.fibo.co.uk) for full instructions and watch our 2-minute installation video.

To ensure a waterproof surface the assembly must always be done in accordance with our installation instructions.

# Fibo Aqualock 100% Waterproof\*

Our Aqualock 'click-lock' patent makes Fibo wall systems the perfect choice for both renovation and new buildings. Our unique system provides a 100% waterproof surface when used in conjunction with an approved sealant, such as Fibo Seal. Panels can be mounted directly onto timber frames, wall surfaces or tiles making the job quick and easy and the joints virtually invisible.

\*For a 100% waterproof seal, sealant must be used in all joints and any exposed plywood surfaces to make our panels fully watertight.

# Bring Scandinavian living into your room

Fibo is the choice of professionals worldwide. Proud to be recognised and awarded for our quality products, with over 80 stunning designs across 6 collections - from natural marbles and stone to sleek contemporary styling.

No matter how large or small your space, we are delighted to launch a range of brand-new designs fit for any room. Also featuring our NEW Accessories collection this range includes sealants, adhesive and cleaning products to complement Fibo's Waterproof Wall Panel system.

**Did you know Fibo offers a range of Class 1 fire rated wall panels?**

Ideal for public sector projects, Class 1 fire rated panels\* offer extra peace of mind. A durable, low-maintenance alternative to tiles that are quicker, easier to fit and provide a proven level of fire protection.

All other panels are a comfortable Class 2 rating.

\*Class 1 achieved against BS 476 Part 7: 1987 Surface Spread of Flame on selected products.

**Choose from the Fibo range of accessories to ensure the perfect finish every time. Ideal for use with Fibo wall panels, our accessories create a quicker, trouble-free installation.**

**Fibo Adhesive:** With high tensile strength, this hybrid polymer is the perfect adhesive for use with wall panels. 1 tube will glue approx. 3 x 600mm panels. Size 290ml.

**Fibo Seal:** A waterproof, hybrid polymer sealant available in either grey or white. 1 tube of sealant is enough to seal all joints on up to 4 x 600mm panels. Size 290ml.

**Fibo Clean:** A special cleaning spray to be used in conjunction with the sealant tool for removing excess unhardened sealant from wall panels. Size 400ml.

**Fibo Wipes:** Multipurpose cleaning wipes for removing unhardened sealant, oil and grease. Pack size: 35 wipes.

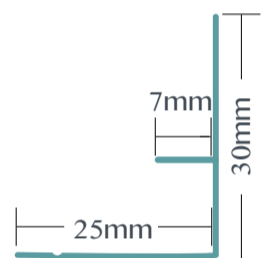

**Fibo Sealant Tool:** The perfect tool to get the optimum seal in Fibo wall panel joints and corners. Pack size: 2 tools.

# The details matter

Use Fibo profiles (trims) to complete your perfect installation.

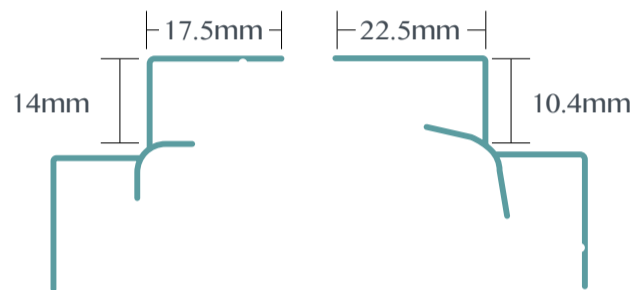

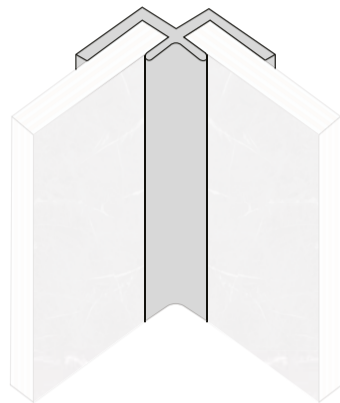

All profiles come in 2400mm length.

- Use a **Hidden Internal Corner** if you don't want to see a metal strip.
- Use a **Base profile** to protect the bottom edge of the panel in a shower, bath or wet room.
- To hide exposed/raw edges use either a **J or L shape**. The L shape is wider in appearance.
- For window reveals or boxing in, use an **L shape**.
- Always use **Fibo Seal** when joining panels together or using profiles.
